DETAILED ACTION

Allowable Subject Matter

1. Claims 7, 9-14 and 20-22 are allowed.
2. The following is an examiner's statement of reasons for allowance:
3. For claims 7 and 11, applicant's invention combination including: "the coaxial cable includes an inner conductor having an outer surface and wherein the coaxial connector includes an inner terminal adapted to engage the outer surface of the inner conductor of the coaxial cable" is not taught by Harwath or suggested other prior art of record. For claim 12, applicant's invention combination including: "the back nut comprises an integral second clamping surface, and wherein the step of securing the back nut of the coaxial cable connector to the back of the coaxial connector to the outer body of the coaxial connector clamps the flared portion of the outer conductor of the coaxial cable between the clamping surface of the outer body and the second clamping surface of the back nut" is not taught by Harwath or suggested other prior art of record.
4. Harwath among other reference does not disclose all limitations of claims 7, 11 and 12, therefore does not disclose all limitations, which are basic to the invention, nor would inclusion of such features be an obvious change.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
